JOIN THE ENGINEERS' CLUB NOW!

The Engineers' Club of St. Louis, organized on December 2, 1868, is the third oldest engineering society in America. In addition to Professional Engineers, membership includes architects, educators, executives, and business administrators, as well as men and women in the technical, scientific, educational, marketing and legal fields.

The Engineers' Club facility on Lindell is home to over 900 Club members and through the services of the Engineering Center, to over 50 Affiliated Professional Societies, representing over 14,000 members.

The Club is a nonsectarian, nonpolitical and non-profit society whose objectives and purposes are to promote the education and professional improvement of its members, to advance the field of engineering in its several branches, to make available to the general public technical and scientific information and knowledge, and generally to aid in the solution of public questions involving engineering and scientific problems. In the furtherance of these goals, the Club strives through its 29 standing committees, to develop and plan on-going educational programs, seminars, symposiums, professional tours, and other technically-oriented meetings, events and projects, as well as social events and activities.
