Survey Party Chief

I am a loyal and dedicated person who has always enjoyed the Land Surveying and Engineering Surveying field. I strive to get along well with others and to be a team player. Although I have extensive experience from years of service in this industry, I always welcomed the challenges to work with new and improved equipment that has been developed in the surveying field. I am seeking to continue my successful career in providing a quality service to all clients and my employer to the best of my ability. I currently have my LSIT for the State of Missouri, and I will be reapplying to retake the test for my Land Surveyor License in the near future.

Key Skills

- Topography Surveys for Commercial Development
- Writing descriptions for new Easements
- Microsoft Word & Excel
- Construction Stakeout for Utilities, Buildings and Roadways
- Micro station & AutoCAD
- Trimble Total Stations and Robotics
- Deed Research at various county court houses in Missouri and Illinois
- Takeoff Bidding & Estimating
- Trimble & Spectra GPS

Employer Summary

EFK MOEN, LLC (St. Louis, MO) — Survey Party Chief, 7/2001 to 4/2010
