Selected Accomplishments

- Secured permits for and directed construction of mega **sanitary landfills** and major site modifications serving bi-state St. Louis regional market.
- Executed business plan for delivery of eighty percent of the **non-hazardous special waste market** to corporate landfill facilities.
- Proposed, designed, and built new state-of-the-art public convenience **recycling center** specializing in E-scrap, HHW, and appliance decommissioning.
- **Negotiated merger** of St. Charles County with St. Louis regional waste management district.
- Presided as district **chairman** administering over two million dollar annualized recycling project grants.
- Initiated divisional operations center for national **hazardous waste/emergency response** contractor serving the Missouri-Illinois theatre.
- Established environmental consulting firm and served as **managing partner/VP**.
- Closed major landfill sites in accordance with all regulatory and corporate protocols including the establishment of LFG/**leachate recovery systems** for the post-closure period.
- Directed regional office for Missouri state environmental **regulatory agency**.
- Ensured successful cleanup of Eastern Missouri **dioxin** and other **superfund** projects.
- Assisted with negotiations to successfully conclude a one billion dollar, fifteen year remediation project transitioning to long-term stewardship of major **USDOE radioactive waste** legacy site.
- **President** of Missouri Waste Control Coalition.
- Served on the following **commissions**: St. Louis RCGA, St. Charles County Environmental Quality Commission, Air & Waste Management Association and Gateway Society of Hazardous Materials Managers.
